Celso Scribante kart track -Port Elizabeth, South Africa

TEAM OVERVIEW

- Rampant Rok is specifically created for International Drivers to come and compete on South African soil amoungst our elite Talent, with the help and guidance of 4x World Champions.
- Being Partnered with Terry Moss Racing we have the 2012 Super Rok Championship leader Simon Moss in our team, who stands as a benchmark for data comparison and ontrack braking, acceleration and lines, who has a vast amount of International karting and Single seater experience.
- Our team has one of the best South African Engine builders at hand, having built Rok world champions and World podium achievers engines.
- Our team prefers to work with Tony Kart chassis, however has experience and is able to work with a vast array of other chassis.
- Coming to compete in South Africa is more than just a race away, it's an experience, its a weekend of learning, you cant put a price on working alongside a Multiple Champion, theres only experience, skill and technique to be learnt, but we at Rampant Rok belive theres a little more to the South African Racing experience and depending on the drivers arrival and departure, should he or she stay the Sunday after the event and fly out that night or Monday, we shall ensure you get to see some Lions and wildlife aswell as feel a little South African culture.
