- All other foreign drivers must have an International License, therefore they must be 13 year old or they must reach their 13th birthday within the 31st December 2014.

ROK CUP INTERNATIONAL FINAL REGISTRATION

This year there will be a change in the modality of registration to the Rok Cup International Final in fact we will accept **1 or 2 QUALIFIED DRIVERS in each category you are racing in your country**. The numbers of qualified drivers must be agreed with us and it depends on the average number of drivers you have in each category during championship races.

Please note that this year for WILD CARDS we will not reserve any place for any Country, we will open the registrations for everybody (Italian and foreign drivers) on a specific date (which will be announced in advance) and the available places will be given according to the arrival order of the entries. There will be no more distinction between places reserved to Italian drivers and to the ones reserved to other countries, the registration for wild card will open for all countries on the same date and we will accept the first entries receved (complete with all the documents) according to the available places. Please note that a wild card can be also a driver who has not attended Rok races during the year.
